

Università di Messina

Prof. Luigi Mondello

Dipartimento Farmaco-chimico, Facoltà di Farmacia Università di Messina - 98168 - Messina, Italia

SHORT CURRICULUM VITAE

Prof. Dr. Luigi Mondello is a Full Professor of Analytical Chemistry at the Dipartimento Farmaco-chimico of the University of Messina, Italy. He received a degree in Chemistry from the University of Messina in 1991. Prof. Mondello teaches the course of Analytical Chemistry and of Food Chemistry at the School of Pharmacy of the University of Messina, and the course of Food Chemistry at the “Campus Biomedico” in Rome. He is the author of 170 Scientific papers, 13 book chapters, 2 reviews, co-editor of a book on Multidimensional Chromatography (John Wiley & Sons), and he has been chairman and invited lecturer in national and international congresses and meetings. His research interests include Chromatography techniques (HRGC, HPLC, HRGC/MS, HPLC/MS, OPLC) and the development of coupled techniques such as LC-GC-MS, GC-GC, GCxGC, LCxLC, LCxGC and their applications in the study of natural complex matrices. Prof. Mondello has been member of the organizing committees of national and international meetings and he is permanent member of the scientific committee of the International Symposium on Capillary Chromatography (ISCC), of the International Symposium on Essential Oils (ISEO), of the International Symposium on Hyphenated Techniques in Chromatography and Hyphenated Chromatographic Analyzers (HTC), of the Brazilian Symposium on Chromatography and Related Techniques (SIMCRO), member of the Scientific Committee of the “Workshop-Symposium on Analytical and Preparative Enantioseparation (Enantioseparation '07), member of the Committee of the Italian Separation Science Group of the Italian Chemical Society, member of the expert team of “Chromedia” (Chromatography Knowledge Base), and editor of Journal of Separation Science and of Flavour and Fragrance Journal both published by John Wiley & Sons, member of the Central Technical Committee of the National System for the Accreditation of the Laboratory (SINAL), and serves as reviewer for 19 different Journals in the field of Analytical Chemistry and Food Chemistry. In February 2006 (York, U.K.) he was awarded with the “*HTC-Award for the most outstanding and innovative work in the field of hyphenated chromatographic techniques*”, from the Flemish Chemical Society. In May 2008 (Riva del Garda, Italy) he was awarded from “The Chromatographic Society” with the “Silver Jubilee Medal for his Considerable Contribution to the Development of Separation Sciences”.

Up to May 26 2008, as downloaded from the Institute for Scientific Information he got 113 papers 1056 times cited with an Average Citation per Year of 70.40 and an Average Citation per Item of 9.35 and an H-Index of 20.

Up to 08/12/2007 Prof. Mondello has 300 of Total Impact Factor
